

NUTRIENT MANAGEMENT (CSP Enhancements)

November 2005

Enhancement Activity Task Sheet

WV-CSPEGM-TS

Clients Name:

Worksheet 8 - Rotate Feeding Areas

Payment = \$2.00/acre for rotation of pasture feeding areas every 30 days to affect manure distribution. Move the location of feeding areas every 30 days to aide in manure distribution and to improve grazing patterns on pasture; reduce animal concentrations and excess trampling of vegetation. Do not place feeding areas within 200 feet of a stream, drainageway, sinkholes, ponds or other surface waters.

Pasture #	Former location of feeding area	New location of feeding area	Date Moved

Rotation feeding areas Management Certification

I certify that I have moved feeding areas as indicated on the table above or as shown on the map I provided.

Clients Signature: _____ Date: _____

Attach map showing old and new locations of salt, mineral, and supplemental feeding areas.
